October 19, 2001

Joshua Breto
Tarpon Springs Middle School
501 N. Florida Avenue
Tarpon Springs, Florida 34689

Dear Joshua Breto:

Congratulations on making the Dean's List at Tarpon Springs Middle School! You must be very proud of your accomplishment. You are getting ready for a successful future.

I would like to join your parents, teachers and friends in congratulating you on the honor all your hard work and effort has brought to you. We need more students to take their studies seriously and excel as you have. Attached is a bookmark that I send to you as my way of applauding your achievements. I hope it proves useful in your future studies.

There is a quotation on the bookmark by President Ronald Reagan regarding America's spirit. He was the 40th President of the United States. He was born in Tampico, Illinois and worked his way through Eureka College. He studied economics and sociology, played on the football team, and acted in school plays. Ronald Reagan displayed consistent optimism and a jaunty self-confidence that endeared him to millions. A scholar had called the presidency an "awesome burden," but Reagan was one who seemed to thrive and draw strength from the position.

I hope you keep up the excellent work! Good luck and best wishes!

For Better Government,

A handwritten signature in black ink that reads "Rob Wallace".

Rob Wallace
State Representative
District 47
